IN THE SAME BOAT

A preacher went into a newspaper office and said: 'You editors do not tell the truth.' The editor replied: 'You are right, and the minister who will at all times and under all circumstances tell the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with white-wash brushes and pleasant words, magnifying little virtues into big ones. The pulpit, the pen and the grave are the great salting machine of the world. And the great minister went away looking very thoughtful while the editor turned to his work and told of the unsurpassing beauty of the bride, while in fact she was as homely as a mud fence. Exchange.

NICHOLS HARDWARE DISPLAY.

If you glance at the newly decorated windows of the Nichols Hardware store, you will know that spring is expected. One window is devoted entirely to mechanics' supplies, anything and everything that a carpenter ought to have for his spring work is to be found there. In the other window is a quick meal range, accompanied by all that is considered necessary by the house wife for a well equipped kitchen. Mr. Nichols is to be complimented upon his tasty display.

MONTE CRISTO

The presentation of Monte Cristo last Thursday evening was one of the best productions ever given in the city. Despite the stormy night, a crowd and appreciative audience showed itself ready to patronize anything good in the theatre line.

Mr. Eugene Moore in the five different characters he impersonated, first as Edmond Dantes, the sailor, second, as prisoner in Chateau d'If, third, as Abbe Busoni, fourth, as Monsieur Jannet, a jeweler, and lastly, as the Count of Monte Cristo, did justice to all these roles and showed himself an actor of no mean ability and it was to his acting that the main interest was centered, though some of his support was excellent, especially, Monsieur and Madam Caderousse. It was an excellent production throughout and when this company again visits our city, it is safe to say that a large and enthusiastic audience will welcome it. If more such talent were induced to come here, in place of what we usually get, the best citizens would show their approval by filling the Opera House every time.

FATHER DALY LECTURES.

Father Daly gave his lecture on The Homeless Child, Tuesday evening, at the Opera House to a fair sized audience. The theme was one to interest every listener and Father Daly spoke from actual experience of his work in connection with the homeless children, in Milwaukee, of which he is head. His talk was enlivened by many anecdotes and witticisms while at times by his eloquence and earnestness he moved the audience to tears.

The receipts of Father Daly's lectures are given to aid the home of which he is such a zealous enthusiast. Since its organization two years ago 125 outcasts have been provided for in homes where they may be given the chance of making something of themselves and of becoming worthy men and good citizens.

GEN. KING INSPECTS.

Gen. Chas. King of the United States Army was in the city Monday night, and inspected Co. L, Wis. Nat. Guards at the Armory. Nearly the full company was present at drill and made a very creditable showing. During the afternoon Gen. King inspected the lockers and gun room and found everything in perfect order. The Rhinelander company can no doubt hold its own with any militia of the state and has always ranked among the good companies. Gen. King has visited here several times in the past for the purpose of inspection and his reports have always been most favorable.

BISHOP WELLS COMING.

Bishop Co-adjutor Wells of the diocese of Fond du Lac will officiate at St. Augustine's Church in this city next Friday at 7:30. He is well known among Rhinelander people all of whom will be glad of the opportunity to hear him again. A cordial invitation is extended to all to attend this service.

A BANNER FAIR.

The officers of the Oneida County Fair Association has thoroughly revised and enlarged the premium list. The races will be better than ever before. There is more enthusiasm by all officers of the association than at any time in its past history at this time of year. The officers cannot make the fair a success without the assistance of the people of the county so all should put forth their efforts to make the fair of 1907 the greatest in the history of the association.

DEATHS.

Mrs. C. W. Hamlin, a well known lady of the South Side, passed away at St. Mary's hospital Monday morning. Death was due to appendicitis with which affliction she was stricken several days ago. To the last the lady was fully conscious and conversed cheerfully with those about her bedside. She realized that the end was near. Among other things she gave directions as to details of the funeral and where she should be buried. Mrs. Hamlin's death is deeply mourned and to the sorrowful husband the most heartfelt sympathy is extended. Funeral services were held Wednesday morning from the Heckert home, Father Johnson of St. Augustine's church officiating. The body was taken to Merrill for interment.

The little son of Mr. and Mrs. Chas. Ballard, aged nine months, died Sunday after a short sickness. Rev. Evans of the M. E. Church officiated at the funeral which was held from the Ballard home on Barnes Street Monday afternoon. The death of the little one comes as a severe blow to the parents who have the sympathy of the community.

ARTISTIC WINDOW.

The windows at the Jacobson big store are creating considerable notice on account of the tastefulness of the display. The figures are artistically draped and the combination and blending of color make a decidedly harmonious effect. The trimmer seems lavish in quality as well as quantity, as no pains is taken to spare fabric in order to produce agreeable effects. The entire store has been renovated and everything therein has the appearance of freshness and newness.

CLIPPINGS.

Ladysmith is to have a new Carnegie library building.

It is reported that 200 girls working in the Russel glove factory at Berlin have been exposed to small pox.

Gov. Davidson has set aside May 18 as Arbor Day.

From 1900 to 1906 the cities of the United States gained 18 per cent. in population, while the population outside of the cities gained but 8.5 per cent. By cities are meant places with more than 8,000 population.

The 1906 census estimates of the United States place our continental population at 83,911,510, New York at 4,113,043, Chicago at 2,040,185, Philadelphia at 1,441,735, St. Louis at 649,320, and Boston at 602,278.

Bargains in Used Weber Pianos.

The operatic artists of the great Conried Metropolitan Opera Company returned a number of Weber Upright Pianos to Lyon & Healy; also the recent moving period in Chicago resulted in a number of rented Weber Uprights being returned; in addition to this all of the Weber Uprights taken in exchange for several months past have recently been overhauled in Lyon & Healy's factory and sent to the Warehouses for sale.

The result of these three sources of supply is that Lyon & Healy are now holding a great Weber sale.

Everyone knows that the Weber is one of the finest pianos in the world, by many it is preferred to any other. So this Weber sale affords to music lovers a chance to secure a magnificent piano at about the price usually paid for an ordinary instrument. Anyone who is interested in a fine piano should not hesitate to write to Lyon & Healy about these Webers. A great many different styles are included in this offering.

Easy monthly payments will be accepted from responsible persons who do not care to pay cash.

Write today to Lyon & Healy for their price list of Weber and other pianos slightly used, that figure in their special thirty-day offer, 10 Adams Street, Chicago.

SECURES GOVERNMENT POSITION.

Burr W. Clark, son of Mr. and Mrs. Geo. Clark of this city, is now located at Leach Lake, Minn., where he is employed by the government as Assistant Chief Clerk on the big Indian Reservation. Burr secured the position which he now holds through a civil service examination which he successfully passed last winter while in Milwaukee.

JURY DISAGREES;
UNABLE TO REACH
VERDICT ON THAW

Body Is Discharged by Court After Deliberation of Nearly 48 Hours.

STANDING AT THE LAST VOTE

Justice Fitzgerald Then Adjourns Sitting of Bench to April 29.

Big Crowds at Tombs and Court House—Thaw Tells Why He Went Armed.

New York, April 13.—After deliberating over the fate of Harry Kendall Thaw for almost 48 hours, the jury reported to Justice Fitzgerald Friday afternoon that they had been unable to agree upon a verdict and were discharged.

Court was then adjourned until April 29.

It was reported that the final vote of the jury was seven for murder in the first degree and five for acquittal.

Planning Trial for October.

It is said that Thaw would be tried again next October and that any effort by his counsel to obtain bail would be vigorously opposed by the district attorney.

Apparently as far away from a verdict as when they retired at 6:17 o'clock last Wednesday afternoon, the jury in the Thaw case continued Friday the task of trying to reach some sort of agreement. No word whatever had come from the jury room up to 12:30 p. m., when Justice Fitzgerald ordered a luncheon recess of court until 2 p. m. At this hour a noonday report was also ordered for the jurors and was served to them in their consultation chamber.

The most remarkable feature of the jury's long consideration of the case was the fact that not once during the 48 hours which had elapsed up to noon had the jury suggested that it could not agree and thus asked for a discharge from further service. The 12 men who sat through the many weeks of the trial apparently felt that their consciences compelled them to do their utmost in making some definite disposition of the case after such a protracted trial and so much expense and inconvenience to all concerned.

Justice Fitzgerald on his part determined to take no step looking to a dismissal of the 12 men until they had made formal announcement of their disagreement and requested to be released.

Crowds Block Streets.

Great crowds gathered about the criminal courts building and the Tombs, fully 5,000 people blocking the streets by 12 o'clock. They came not only in the hope of securing a glimpse of Evelyn Nesbit Thaw or some other member of Thaw's family. When Mrs. Thaw left the building to go to luncheon she was again all but mobbed and several scores of policemen had to make a way for her through the curious throngs.

Crowds began to assemble in the streets about the criminal courts building as early as 8:30 o'clock. Several hundred persons gained an entrance and took up vantage points along the three tiers of balconies overlooking the interior court of the big structure, in the hope of catching a glimpse of Thaw or some member of his family.

At noon the crowd about the courthouse was so great that traffic was practically stopped. When a rumor that any member of the Thaw family was about to leave the building they surged from one corner to another, sweeping the few policemen who were trying to preserve order almost off their feet.

A call for reserves from several nearby precinct stations was responded to by half a hundred men, who were distributed on both of the streets on all four sides of the building. Inspector McCluskey issued orders that no crowd was to be permitted to congregate. No one was allowed to stand on the sidewalks, all of the curious being obliged to keep moving.

Prisoner Is Cheerful.

Mrs. William Thaw and her sons, Edward and Joseph, were at the courthouse early and as soon as they were permitted visited the defendant in the prisoners' pen. They found him cheerful as usual, absolutely refusing to feel depressed over the outlook. A disagreement of the jury, however, would mean another long period of confinement for him.

To the prisoner's mother and wife the anxiety and the strain of the long wait for a verdict proved a far greater hardship than to the man whose life is supposed to be hanging in the balance.

The long delay of the jury's deliberation also proved very hard upon counsel connected with the case, the

obstacle in turning the New Testament into English, for that people did not know what sheep were, had never seen any, and could not conceive of them. Therefore, the phrase was rendered "The Little Seal of God."—William George Fitzgerald in the Circle.

Wealthy Lumberman Dies.

Oshkosh, Ill., R. H. Starkweather, the former wealthy president of the Starkweather Lumber company, died of heart trouble. He was 75 years old.

court officers and others whose business calls them to the trial.

Jurors in Good Spirits.

The jurors went to breakfast shortly after seven o'clock in the morning. In spite of their long confinement the jurors showed little evidence of the strain they have been under. All of them seemed to be in good spirits when they returned to the court building at nine o'clock.

Juror Pink, who was ill Thursday, accepted much improved Friday morning. The juror passed a quiet night, according to the court officers who have them in charge, but continued their arguments and balloting until breakfast time.

Work of Other Murder Juries.

This jury's struggle to reach a verdict in this already famous case has brought up several comparisons of interest. When Roland H. Mollenau was tried the first time the jury was out eight hours and it convicted him; when he was tried again the jury was but 25 minutes in reaching a decision to acquit him. When Nan Patterson was tried the "second" time, the illness of a juror having caused the suspension of the first trial, the jury was discharged after it had been out 21 hours and reported that it could not agree. Her third trial was equally empty of results after the jury had been out 11½ hours.

The Thaw jury exceeded these records by many hours, having retired at 5:17 Wednesday afternoon. It had, therefore, been in session over 41 hours when court opened Friday morning.

District Attorney Jerome said that the longest period of confinement he had ever known a jury to endure in this jurisdiction was 48 hours. The court of appeals approved the course of the court in that instance because there was no attempt to coerce the jury.

Guessers Are Badly Mixed.

It was persistently reported Friday morning that the members of the jury are divided nine to three. Some said nine were for conviction for manslaughter and three for acquittal, while others declared it was three for conviction and nine for acquittal on the ground of insanity. These reports were lent a certain degree of color by the statements of persons who had watched the jury room windows early Friday morning. They said the jury was arranged for discussion in three groups with one man in the center of each, seemingly disagreeing with the others.

Consulted with Olney and McClure.

Justice Fitzgerald, it developed, had a long conference last Tuesday night with Messrs. McClure and Olney, who were members of the commission in charge which examined Thaw. It was said the judges probably wanted to consult with the commissioners as to their views as to whether they would consider it wise to release Thaw in the event of a verdict of acquittal on the ground of insanity.

Why Thaw Carried Revolver.

Harry Thaw Friday morning, through his attorneys, gave out the following statement:

"I wish the jury and every one else to understand that no one despises a person who carries a concealed weapon more than I.

"That only after my life was in jeopardy, as I was informed by persons, and as was communicated to me by professional detectives, did I protect myself. Then I employed the Pinkertons, and they could never prove these attempts so I could invoke the protection of the law or disprove them so I could safely continue defenseless.

"Then, doubting my judgment, I consulted an ex-chief of police, a man respected in his community, and he advised that my duty was to protect myself.

"In this trial I wish my case solely and simply based upon the law of the state and upon the evidence, which had convinced not only me as I reviewed all this evidence, but also the district attorney, that I am innocent under the written law of the state."

MR. HARRIMAN AND THE PRESIDENT
The publication of a stolen copy of a letter written by Mr. Harriman to a friend regarding his relations with President Roosevelt has elicited from the latter a vehement denial of Mr. Harriman's allegations and certain letters sustaining his denial. The question at issue turns upon heavy contributions made by Mr. Harriman and three other financiers to the Republican campaign funds in New York in 1904, and a promise alleged to have been made by Mr. Roosevelt to appoint Senator Depew ambassador at Paris. The correspondence given out by Mr. Roosevelt seems to refute the allegations made by Mr. Harriman, and, so far as railroad legislation is concerned, it appears that Mr. Harriman was not only not consulted, but was refused his coveted opportunity to read in advance a portion of the President's message bearing on that subject. The whole incident, however, is unpleasant, and serves to emphasize the desirability of forbidding corporation contributions to political funds.—Journal of Education.

When your Watch Stops
You cannot make it go by shaking it. When the bowels are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and the same is true of the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative, **Lane's Family Medicine** is the method adopted by intelligent people.

Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

The price and quality of Lamm suits give satisfaction. See new samples at the Hub.

LETTER TO MR. S. D. NELSON Rhinelander, Wis.

Dear Sir: "It costs as much to put on poor paint as good"--a common saying and true--it costs much more to put on poor paint; more gallons. Poor paint is paint and barytes or paint and sand or paint and lime or paint and chalk or paint and benzine or paint and water; these are the usual cheats; there are others.

It takes more gallons of paint and a cheat than of honest paint, and the cost of the labor of painting is so much a gallon one gallon costs as much as another, for labor.

This is the way to reckon your costs for this year; but how about next year?

Paint Devoe, and next year costs nothing; year after the next the same; the same for several years.

Paint anything else, and your costs recur according to what you paint with. Some of the mixtures wear one year; some two; some three.

It costs twice, three times, four times, five times, as much to paint with a cheat as to paint with Devoe.

Yours truly F W Devor & Co New York and Chicago Nichols Hardware Co. sells our paint.

Weekly Budget Gathered by Our Special Correspondent at Madison.

Helbron's Measure Beaten.

The Helbron bill, providing for the licensing of meat markets and other establishments where meat products are sold was killed by an overwhelming vote. The opponents of the bill declared that it would not improve sanitary conditions of meat markets, but would simply give present dealers an advantage over other persons desiring to engage in the business. It was proposed under the bill to license all meat dealers, the license fee being from one to five dollars a year.

Legislature Has Much Work.

Up to this time but little of the legislative programme has been executed. Of the hundreds of bills introduced in both houses a few only have reached the governor nor have the committees made more than flimsy progress. So apparent is this condition that the members must give serious attention to work if the session is to produce satisfactory results. Laws affecting millions of dollars' worth of property cannot well be rushed through at the last hour.

La Crosse.—The La Crosse board of trade, at a meeting, unanimously passed resolutions indorsing the candidacy of John J. Esch for senator.

A Woman Tells How to Relieve Rheuma- tic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until 2 years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—MRS. SARAH A. COLE, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by

upon complying with the conditions hereinafter referred to.

Section 2. For the purpose of constructing, maintaining and operating such a plant, and of laying, maintaining and operating such pipes, mains and conduits, the said R. G. Lowell and Albert Hafner, their heirs and assigns, shall do no permanent injury to any street, alley, park, lane, sidewalk or public grounds in said City nor shall in any manner interfere with any water main or pipes, electric wire or cable now laid or constructed, or which may hereafter be laid or constructed by said City of Rhinelander or by any authorized person or corporation, and all excavations, made for the purpose of laying or repairing said pipes, mains or conduits shall be at the time in the manner specified by the Board of Public Works of said City, and all streets, alleys, lanes, sidewalks or other public property disturbed by such excavation or other work shall be promptly repaired by the said R. G. Lowell and Albert Hafner, their heirs and assigns, and placed in the same condition as found before the commencement of the work; and in case of their failure to so repair any such injury or replace any such street or other property so injured or disturbed within a reasonable time thereafter, and after notice of either verbal or written has been given by the Board of Public Works of said City to any person in charge of said gas plant in the City of Rhinelander, then and in any such case the City of Rhinelander shall have the right, without further consultation, to proceed and repair any such damage, and the expense for such work as may be done by the said City shall be charged to and paid by the said R. G. Lowell and Albert Hafner, their heirs and assigns.

Section 3. The said R. G. Lowell and Albert Hafner, their heirs and assigns shall furnish a good and sufficient surety bond in the penal sum of two thousand dollars (\$2000.00) to be approved by the Mayor of the City of Rhinelander running for a period of three years from and after the time this ordinance becomes effective, and payable to said City, conditioned that the said R. G. Lowell and Albert Hafner, their heirs and assigns shall during said period, in all cases where any street which is now or hereafter be improved with macadam or any other permanent form of improvement shall be disturbed by excavation or otherwise, under authority hereto granted, repair same promptly and place in the same condition as found before commencing such work, or forfeit to said City the said amount or as much of same as may be necessary to cover the cost of such repairs, and this ordinance shall not become effective until such bond is furnished and approved. After the expiration of the period covered by said bond no street which may be improved as above shall be disturbed in any manner or for any purpose by the said R. G. Lowell and Albert Hafner, their heirs and assigns, until such security as may be required by the Board of Public Works of said City for the proper repairs of same shall be given.

Section 4.—The said R. G. Lowell and Albert Hafner, their heirs and assigns shall, in all cases where macadam or other permanent form of improvement shall have been ordered constructed on any street, and they are directed so to do by the Board of Public Works of said City, complete the laying of all necessary gas mains and pipes on any such street so ordered improved, before the commencement of said permanent improvement by said city, and in case of the failure or refusal on the part of the said R. G. Lowell and Albert Hafner, their heirs and assigns, so to do, after being directed and the lapse of thirty days during which time such work might have been done, then and in such case all the rights, privileges and franchises granted to said parties by this ordinance in and to the streets so effected shall be forfeited by said parties, their heirs and assigns, and become void.

Section 5.—The said R. G. Lowell and Albert Hafner, their heirs and assigns shall furnish gas of standard illuminating power to the said City of Rhinelander and to the inhabitants thereof along the line of its mains, together with meters for measuring the amount used by each consumer, during the term of this franchise, at a price not exceeding one dollar and fifty cents (\$1.50) per one thousand cubic feet for lighting, fuel, heating, culinary and manufacturing purposes and for any other purposes for which gas may be required or used, provided, the said R. G. Lowell and Albert Hafner, their heirs and assigns, shall have the privilege of adding fifteen (15) cents per thousand cubic feet additional to the aforesaid price when the bill for gas so furnished shall not be paid within ten (10) days after the same is due and presented for payment, and provided further, that in any case where the amount of gas used by one consumer during the current month shall not exceed in value twenty-five cents, a minimum charge of twenty-five (25) cents per month for meter service may be made.

Section 6.—Said R. G. Lowell and Albert Hafner, their heirs and assigns, shall be liable to compensate the City of Rhinelander for all damages arising from negligence on their part while opening or encumbering any street, alley, lane, park or public ground or in doing or failing to do any work authorized or required by this ordinance, and shall at all times be subject to the ordinances of said

city now in existence or which may hereafter be passed and in force.

Section 7. The said R. G. Lowell and Albert Hafner, their heirs and assigns shall begin to supply gas to the said City of Rhinelander and the inhabitants thereof through its mains and pipes not later than October 1st, 1908, and the supplying of same shall be through at least two miles of gas mains or pipes, said two miles of mains or pipes to be located as directed by the Board of Public Works of said City; so that if the said mains or pipes should be tapped at any point within the said distance, a sufficient supply of the quality of gas hereinbefore referred to could be had for illuminating or other purposes, and in the event of the failure on the part of the said R. G. Lowell and Albert Hafner, their heirs and assigns, to construct sufficient gas mains or pipes through which to furnish gas in the locations, within the distance and within the time hereinbefore referred to, then the said R. G. Lowell and Albert Hafner, their heirs and assigns, shall forfeit all their rights and interests in and to provisions of this ordinance, and the same shall at once terminate and become void. But should the installation of such gas plant be delayed by litigation, the same shall work an extension of the time for completing such works and laying such mains equal to the loss of time so occasioned.

Section 8. This ordinance shall be in force and operative after sixty (60) days from and date of its passage, publication and compliance with the provisions above referred to.

Moved by Alderman Dorsch seconded by Alderman Hanson that the Chair appoint a Committee consisting of 3 Aldermen and the City Attorney for to investigate in reference to the foregoing matter and report at the next regular meeting of the Council. Carried.

For such committee the Mayor appointed Ald. Gary, Morrill and Anderson.
